

Dear DOWNTOWN EAST lacrosse parents,

In an effort to ensure our teams get to practice outdoors as often as possible, we have worked out a preseason schedule which will allow our lacrosse players to utilize the turf fields located on the West campus. So that we may accommodate the transportation needs of those athletes who do not drive, we are offering a bus that will take the players to the stadium after school and parents should plan to pick up their child at the Stadium at the conclusion of practice. This bus will be offered **only** on the days that practice times are **2:45pm**.

We are suggesting that any player who does not drive will take advantage of the bus and not ride in a car with another player. However, we realize that "carpooling" will occur. Therefore we have included a permission slip for parental consent to inform us of your intentions as to how your child will get to practice. The permission slip must be signed and returned to the coach **PRIOR** to March 7-the official start of spring sports.
